QUESTIONS TO ASK YOURSELF BEFORE CHOOSING A COLLEGE

1

WHAT DO YOU WANT TO DO AS A CAREER?

Even if you're undecided on your exact major, choose a college that offers degree programs that make sense for the career you want.

2

WHAT SIZE COLLEGE FEELS RIGHT — SMALL, LARGE OR SOMEWHERE IN THE MIDDLE?

There are benefits to each size. It comes down to what feels right to you. Do you prefer smaller classes where you know most of your classmates or do you like the idea of being part of a larger college community where you are continually meeting new people?

3

WHAT'S THE RETURN ON INVESTMENT?

College can be expensive and you'll want to make informed decisions about the costs. Speak with a financial aid advisor – even before you're accepted – to understand the cost of attendance. They can also discuss financial aid opportunities that can help make college more affordable. Having a college degree is important for advancement in many industries driving today's economy, but it's also a major financial decision. Take your time and do your research.

4

WHAT'S THE STUDENT LIFE LIKE?

The best way to get a sense of student life on campus is to simply visit. Take a campus tour. Check out the student clubs and events page listed on the college's website. Grab a cup of coffee, sit down in a common space and people-watch.

5

DO YOU WANT TO GO AWAY TO COLLEGE OR STICK CLOSER TO HOME?

Location is important. Whether you want to be close to your family or think a little distance could be for you, make sure that you've thought through the pros and cons that come from being that close or far from home.

6

OTHER THAN A DEGREE, WHAT DO I WANT TO GET OUT OF A COLLEGE EXPERIENCE?

Whether you want to compete in college athletics, lead a student club, or simply meet people and make new friends, college is an opportunity to learn and grow outside of the classroom, too. So pick a college that you think will help you achieve your goals – academically, personally, and professionally!
